Palliative Pain & Symptom Management Consultation Services

**Serving Northeastern Ontario
LHIN 13**

**Program is administered by
VON Algoma**

Introduction

Through the Ministry of Health & Long Term Care, health care service providers have access to **Palliative Pain & Symptom Management Consultants**. They provide education and mentorship while building capacity and linkages to palliative care resources. The **Northeastern Ontario Palliative Pain & Symptom Management Program** is funded through the North East LHIN and sponsored by VON Canada, Algoma site.

Consultation

- Helps build capacity of service provider by facilitating exchange of information
- Mentors palliative nurses and service providers in all care settings
- Advocates for system development (e.g. use of standardized assessment tools)
- Participates in palliative care and pain & symptom management rounds
- Provides consultation service for service providers caring for clients receiving palliative and end-of-life care

Palliative Pain & Symptom Management Consultants

- Assists service providers in the application of the Model to Guide Hospice Palliative Care (HPC) using assessment tools and best practice guidelines
- Consultations available in-person, by telephone, videoconference or e-mail
- Provides case-based education and mentoring for service providers
- Builds capacity among front line service providers in the delivery of HPC
- Links service providers with specialized hospice palliative care resources across the continuum of care for:
 - LTC homes
 - Community support agencies
 - Hospices
 - Day programs
 - Supportive housing
 - CCAC & contracted agencies

Education

Supports standardized palliative care education, including:

- Fundamentals of Hospice Palliative Care
- Advanced Hospice Palliative Care Education (AHPCE)
- Comprehensive Advanced Palliative Care Education (CAPCE)
